### PERSONAL STATEMENT

Brisbane based designer, excited to finally get out there and be apart of a team. Outside of this I contribute to Flux Collective which I cofounded with some uni friends who where also passionate about giving back to the design industry. I enjoy learning and experiencing new things, whether its a new language or an instrument.

I am proficient in design, web and illustration, I have been freelancing by providing design solutions for the last 8 years. I look forward to joining a new team and contributing my experience and specific talents to solve real problems for exciting new clients.

*Although I am very good at what I do, I would not say I'm an expert as I am always learning new ways to solve the same problems.*

### MY LIFE

I don't like to waste time, I love to read, learn music, teach myself a new art style. I try to find a good balance between my work, building my talents and taking some down time. I also put a great deal of focus on health and making good lifestyle choices. This is part of the reason I helped form Flux Collective, to take time to give back to my industry and help new artists realise their potential.

I look forward to hearing from you soon, thank you for reading.
